Tyler Machine Tool appointed importer for Nexturn Swiss

Seabrook, New Hampshire, August 8, 2005 — Tyler Machine Tool Co., Inc. has been appointed exclusive importer for the Nexturn line of CNC Swiss style screw machines for all states east of the Mississippi River effective July 19, 2005.

Nexturn is located in South Korea and was formally marketed in the U.S. under the KSI Swiss name. The line includes 6 models from 12 mm to 38 mm capacity.

“We will be actively setting up distribution over the next couple of months,” according to Mike Tyler, President of Tyler Machine Tool.

About Tyler Machine Tool
